FIBRE	<1,0 g
PROTEIN	32,6 g
SALT	2,37 g

## PRODUCT DESCRIPTION

The AÑEJO RESERVA SERRANO HAM is produced from materials selected and prepared at our facilities in the province of Zaragoza. We use fresh pork that is subsequently salted, dried and matured in our natural aging facilities in Fuendetodos. By the time these hams have reached the optimum state for consumption, they will have been curing for a minimum of 20 months.

The SLICED AÑEJO RESERVA SERRANO HAM is produced in a certified clean room, where the ham is de-boned, pressed, sliced and packaged in 100-gram packs.

## PRESENTATION

The commercial presentation of the finished product consists of vacuum-packed 100-gram packs of SLICED AÑEJO RESERVA SERRANO HAM, which are themselves packaged in individual cardboard sleeves and then placed in display boxes of 20 units. The products feature our registered brand name MARIANO GÓMEZ and all of the current legally required indications regarding product identification.

## ORGANOLEPTIC QUALITIES

The product's characteristics are those of the ham from which it is made: colour somewhere between pink and red, a slightly salty flavour, and the aroma resulting from a long, slow drying process in natural drying facilities.

## PRESERVATION AND CONSUMPTION

To ensure optimum preservation we recommend storing the product in a dry, fresh location, away from strong odours.

TSG Certification  
Traditonal Specialty Guaranteed

Allergen free

INGREDIENTS Pork ham, sea salt, sugar, dextrose, preservatives E-250 y E-252.
